TERMS & CONDITIONS:
 Cash, good check, credit card (processing fee applies). All items sold AS IS, WHERE IS. No warranties are expressed or implied by Montana Auction Company, it's auctioneers, or the sellers. Any and all statements and announcements made on sale day by auctioneers and owners take precedence over any and all advertising.

Auctioneer's Note: This is a one of a kind auction with an incredible amount of lapidary supplies that don't come up for auction very often. Also, the firearms are all in new condition. If you are an experienced lapidarist or someone just getting into the hobby you won't want to miss this auction!

DAVEY

Experts in Water

**Need better
water pressure?**

COMPACT PRESSURE BOOSTER PUMPS

- Due to low municipal supply pressure
- To pump from underground/above ground storage tanks
- For a more enjoyable shower experience
- So flushing a toilet doesn't give you the 'chills' in the shower
- So your sprinkler system actually irrigates instead of just dribbling

**Our Water Pressure Booster
Systems can fix your low water
pressure problems**

730 3rd Ave. South • Glasgow, MT

AUCTIONEER'S NOTE:

Anne, Bud's wife has decided to liquidate most of Bud's equipment. Most everything in this auction is in very good to excellent condition. The tractor has very low hours and is field ready. The land leveling equipment is top quality. You will not want to miss this auction! This will not be an all-day sale, so please be on time. Hope to see you June 25th. ~Rick

Gen 2 Algae Prevention Tanks **Freeform** by Free Form Plastics

Algae growth and contamination have always been problems with water transport tanks. Black tanks have typically been used to overcome this problem, but because of the heat absorption of black the inherent strength of the tank is compromised making it difficult to securely fasten the tank for transport.

The design staff at Free Form Plastics has patented an innovative tank which eliminates algae growth without sacrificing the tank's structural integrity. It appears to be a normal white tank but the inside is black to block UV rays.

Available in 3 Styles:

- **Vertical Flat Bottom:** 1500, 1680, 1800, 2100, 2400, 3000 US gallon
- **Vertical Cone Bottom:** 1500, 1680, 1800, 2400, 3000 US gallon
- **Low Profile:** 1380, 1620, 2340, 3180, 3900 US gallon

The Low Profile tanks have extreme ribbing and heavy-duty design to eliminate the need for steel support hoops. 3" bulkhead fitting is standard and comes with an interior siphon tube for better drainage.

In stock in heavy-duty Gen2 (white exterior, black interior) versions. The 3900 gallon is modular in design. The 1380, 1620, 2340, and 3180 gallon are a 1-piece design.

Large ribs act as baffles reducing the amount of sloshing and domed ends add strength and also reduce sloshing. A large manhole for easy access if required and comes complete with unload and load hooks.

CHEMBINE by Freeform Plastics 75 Gallon Capacity

—This new product is a cutting-edge way of mixing your dry and liquid chemicals for your agricultural needs. The **CHEMBINE** incorporates all the features of a typical chemical mixer plus adds some user-friendly features while dramatically improving in the following areas: New and innovative knife block design provides a more efficiently shaped cut requiring less effort, faster & more complete drainage/rinsing as well as easier removal of the jugs. Increased agitation —Easy rinse and drain — Improved visibility with all hoses having clear sidewalls. With or without 3" Honda pump.

AIR BUBBLE JETS

reduce drift and
improve leaf contact

- They reduce the number of very small droplets - these are the ones which cause drift.
- They create pockets of air in the droplets that on contact with the leaf, collapse dispersing the liquid evenly

Chafer Streambar MR

Easy, Fast Set-up... For Accurate, Even Liquid Fertilizer Application

- Available with a variety of nozzle caps and can be fitted directly to a wide range of sprayers.
- No adapters are required.
- Each Streambar MR features an integrated Multi Rate metering system to alter application rate. Instead of removing the bar and changing color coded restrictors, rates are changed by adjusting the sliding metering mechanism.

EXCELS UNDER PRESSURE.

From cleaning dirt off your tractor to removing years of weathering from your deck, there's a lot you can do with a genuine Case IH pressure washer. With hot and cold water models ranging from 1,500 to 4,000 PSI, there's a commercial-grade pressure washer right for the job and for your budget. When you use a tough and reliable Case IH pressure washer, you'll be ready for anything the job demands.

SEE US TODAY FOR MORE INFORMATION ON PRESSURE WASHERS.
